

ENGINEERING

Associate of Science

The Associate of Science degree with a field of study in Engineering offers students the opportunity to take a core curriculum of general education with an emphasis on Engineering. At the present time, a high percentage of all the technical and managerial positions in industry are occupied by engineers. Our engineering program prepares students for transfer to a four-year institution where they can specialize in all engineering disciplines such as:

- Aerospace Engineering
- Agriculture Engineering
- Bioengineering
- Chemical Engineering
- Civil Engineering
- Computer Engineering
- Electrical Engineering
- Environmental Engineering
- Industrial Engineering
- Manufacturing Engineering
- Mechanical Engineering
- Nuclear Engineering
- Petroleum Engineering
- Radiological Health Engineering

It is suggested that students interested in the fields of Chemical or Petroleum Engineering follow a modified Chemistry degree plan, which includes MATH 2413 Calculus I. An appointment with a faculty advisor before enrolling is strongly recommended.

The course listing for the Associate of Science degree with a field of study in Engineering closely parallels the first two years of education that one would receive at most engineering schools. Upon completion of this sequence, many students transfer to an engineering school and obtain a degree in one of the various engineering fields. However, students intending to transfer should be aware of the transfer institution's requirements.

It is possible to complete the engineering sequence in a number of ways and time periods. However, because of sensitive math and physics prerequisites, the suggested guideline should be closely followed if one hopes to complete the program in a timely manner and to smoothly transition to a four-year institution.

Students with an SAT score of 560+ (SAT II Math Level 1), 520+ (SAT II Math Level 2) or an ACT score of 28+ may also enroll directly into MATH 2413 Calculus I. Otherwise, it is recommended that students take the prerequisite MATH 2412 Pre-Calculus Math the summer prior to the start of the fall semester. Enrollment in MATH 2412 Pre-Calculus Math requires a prerequisite of MATH 1414 College Algebra or ACT scores of 25-27, SAT II Math Level I scores of 520-559, or SAT II Math Level 2 scores of 500-519.

Engineering program webpage: <https://www.southtexascollege.edu/engineering/>

Program Learning Outcomes

1. Students will identify, formulate, and solve engineering problems by applying principles of engineering, science, and mathematics.
2. Students will perform experiments and will communicate analysis and interpretation of results in written reports.

3. Students will solve engineering and technical problems.
4. Students will describe professional and ethical responsibilities in the engineering profession.
5. Students will use techniques, skills, and modern engineering and technical tools necessary for professional practice.
6. Students will describe the main features of work groups and teams.

TSI Liable

Field of Study - 26-30 credit hours

Required for All Engineering Students (14 Credits)

ENGR 1201	Introduction to Engineering	2
MATH 2414	Calculus II	4
MATH 2415	Calculus III ¹	4
or MATH 2420	Differential Equations	
CHEM 1409	General Chemistry for Engineering Majors ²	4
or CHEM 1411	General Chemistry I	

Tracks

Select one of the following tracks: 12-16

General/Mechanical/Manufacturing Track (13 Credits)

ENGR 1304	Engineering Graphics
ENGR 2301	Engineering Mechanics - Statics
ENGR 2302	Engineering Mechanics - Dynamics
ENGR 2405	Electrical Circuits I

Civil Engineering Track (13 Credits)

ENGR 1304	Engineering Graphics
GEOL 1403	Physical Geology
ENGR 2301	Engineering Mechanics - Statics
ENGR 2302	Engineering Mechanics - Dynamics

Electrical Engineering Track (12 Credits)

COSC 1436	Programming Fundamentals I
ENGR 2406	Introduction to Digital Systems
ENGR 2405	Electrical Circuits I

Computer Engineering Track (16 Credits)

COSC 1436	Programming Fundamentals I
COSC 2425	Computer Organization
ENGR 2405	Electrical Circuits I
ENGR 2406	Introduction to Digital Systems

Chemical/Environmental/Petroleum Engineering Track (15 Credits)

Take all of these:

CHEM 1412	General Chemistry II
CHEM 2423	Organic Chemistry I
ENGR 2301	Engineering Mechanics - Statics

Select one of the following:

CHEM 2425	Organic Chemistry II (Chemical Engineering)
BIOL 1406	Biology for Science Majors I (Environmental Engineering)

GEOL 1403	Physical Geology (Petroleum Engineering)	
STC Core Curriculum - 33-34 credit hours		
Complete a minimum of 33-34 credit hours of required Core Curriculum including the following: ³		33-34
<i>Mathematics</i>		
MATH 2413	Calculus I	
<i>Life and Physical Sciences</i>		
PHYS 2425	University Physics I	
PHYS 2426	University Physics II	
<i>Core Component Area Option</i> ⁴		
MATH 2420 or ENGR 1304 or Component Area Option - Core Curriculum		
Total Credit Hours		60-64

- ¹ Students following the Computer Engineering track must take MATH 2420 Differential Equations and all others must take MATH 2415 Calculus III.
- ² Students following the Chemical/Environmental/ Petroleum engineering track must take CHEM 1411 General Chemistry I and all others must take CHEM 1409 General Chemistry for Engineering Majors. Students should see an advisor if they are unsure which course to enroll in.
- ³ In addition to the courses in the Field of Study, the student is required to take 33-34 credit hours from the STC Core Curriculum.
- ⁴ Students following the Mechanical/General/ Manufacturing, Civil, or Electrical tracks must take MATH 2420 Differential Equations in order to fulfill the co-requisite requirement for ENGR 2405 Electrical Circuits I. ENGR 1304 Engineering Graphics is only for Dual Enrollment Academy Track. All others should see an Engineering Faculty Advisor to select a course based on transferring institutions and career interests.

Recommended After Completion of Degree to be Core Complete

Students may complete the courses from the following Core component areas to be core complete. Students should speak with a faculty advisor and check with the institution they intend to transfer in order to decide if these courses should be completed at South Texas College.

Social and Behavioral Sciences Elective
