

# INTERDISCIPLINARY STUDIES

## Associate of Science

The Associate of Science Degree field of study in Interdisciplinary Studies provides students with a broad-based education in “college basics” that promotes critical thinking skills and allows for an opportunity to make an informed choice in educational preferences. The program offers transferable field of study selections in life science, physical science, computer applications, engineering, mathematics, and allied health sciences. This flexibility aspect of the field of study for this degree allows students the ability to develop individualized transfer pathways that can be used towards the successful completion of a Baccalaureate Degree in any science related discipline. Students are strongly advised to work closely with a student success specialist, program chair, or faculty advisor to select the courses and to map the course sequence needed for their specific academic interest.

## Program Learning Outcomes

1. Communication Skills - Effective development, interpretation and expression of ideas through written, oral and visual communication.
2. Critical Thinking Skills - Creative thinking, innovation, inquiry, and analysis, evaluation, and synthesis of information.
3. Empirical & Quantitative Skills - Manipulation and analysis of numerical data or observable facts resulting in informed conclusions.
4. Personal Responsibility - Ability to connect choices, actions and consequences to ethical decision-making.
5. Social Responsibility - Intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities.
6. Teamwork - Ability to consider different points of view and work effectively with others to support a shared purpose or goal.

## TSI Liable

### Field of Study - 18 credit hours

Select a minimum of 18 hours of Field of Study courses <sup>1</sup>	18
---	----

### STC Core Curriculum - 42 credit hours

Complete 42 <sup>2</sup> credit hours of required Core Curriculum	42
---	----

<b>Total Credit Hours</b>	<b>60</b>
---------------------------	-----------

<sup>1</sup> The Field of Study courses must be chosen from two (2) or more AA or AS field of study.

<sup>2</sup> In addition to the courses in the Field of Study, the student is required to take 42 credit hours from the STC Core Curriculum. These courses must not duplicate courses taken to fulfill the field of study requirements.
