Associate of Science

The Associate of Science degree with a field of study in Mathematics offers students the opportunity to take a core curriculum of general education with an emphasis in Mathematics. Mathematics majors learn foundational mathematical skills that can be applied in various professions, especially the traditional sciences. The Associate Degree of Science in Mathematics serves as a two-year transferable block to a four-year university for a Mathematics minor or Bachelor of Science in Mathematics. Many potential career opportunities exist for Mathematics majors, including careers in actuarial sciences, aerospace, business, economics and finance, engineering, insurance, medical sciences, education, computer science and the physical sciences. Potential careers include:

- Actuary
- Data Analyst
- Data Scientist
- Forecast Analyst
- Game Designer
- Researcher
- Statistician
- Sales Analyst
- Consultant
- Systems Analyst
- Logistics
- Investment Analytics
- Educator
- Operations Research
- Computer Programming and Development
